

# Oven Cleaner

## Technical Datasheet

---

### Product Description

Our oven cleaner is a powerful, low-risk, non-volatile, environmentally friendly cleaner that effectively removes greasy deposits and burnt-on residues from ovens and grills.

As a first step, we recommend an initial wipe-down with an internal cleaner such as Nuvite [C-49](#) . This will remove normal spills or splashes. If there is anything that cannot be removed this way, then use our oven cleaner with caution.

Directions for use.

Test on a small non-critical area first. Allow a minimum contact time of at least 60 seconds and agitate the surface with a hard brush, scourer or cloth. Wipe surface clean with a damp cloth.

Where possible, avoid contact with painted surfaces, aluminium or copper.

Dont forget PPE

**Commodity Code:** 3402905030

### Features

- Low Odour and volatility.
- Replaces traditional volatile and hazardous aliphatic and aromatic hydrocarbon solvents.
- Can be used safely in confined and enclosed areas.
- Reduces scrubbing and labour costs.
- Reduced carbon footprint.
- Renewable plant-by-product technology.
- 100% PCR – no single use plastic.
- Not tested on animals.
- 100% Biodegradable.
