

## **Memorandum**

DATE: 5/5/2022

TO: Alex Campbell, Arrow Solutions

cc:

FROM: Alex Stovall, Lockheed Martin Aeronautics

SUBJECT: STM32-307 Qualification

This memo is to notify you that the following product has been successfully qualified to STM32-307:

<b>Product</b>	<b>Qualified Groups</b>
Lotoxane	1, 3, 4, 5, and 6

STM32-307 is an internal material specification for “HAND CLEANING SOLVENTS, LOW VAPOR PRESSURE AND AQUEOUS COMPOUNDS.” It is divided into six groupings based on different applications and substrates.

- Group 1 – Cleaning for Pre-Painting and Pre-sealing
- Group 2 – Removal of TPC
- Group 3 – Cleaning of Composites (General Cleaning)
- Group 4 – Cleaning of Acrylic Plastic
- Group 5 – General Metal Cleaning
- Group 6 – Cleaning for Structural Bonding

All purchase orders for this product are placed by Incora on behalf of Lockheed Martin. These materials are considered certified to STM32-307 based on Lockheed Martin testing.
